LOCAL WHOLESALE TRADE

COMMISSION ROW SHOWED THE USUAL FRIDAY ACTIVITY.

Prices Easy and Home-Grown Stock Arriving Freely-Wheat Arrives Liberally, but Corn Is Scarce.

Trade was active on Commission row yeserday. Orders from outside districts which draw supplies of fruits and vegetables from this market, home retail houses and market men were liberal buyers. The supply of choice apples is hardly equal to the demand and for such the sale is ready at full prices. Peaches are in good supply and prices are well maintained. Tropical fruits move slowly with prices unchanged. Homegrown cabbage and cucumbers are coming forward freely and prices are too low to admit of further shipments from the outside. Tomatoes ard in abundant supply and near-by productions will soon supply the market, as there were receipts of homegrown stock yesterday. There is a continued demand for potatoes, but prices on large receipts are weakening. There is no abatement in the demand for sugar and coffee. Sugar is steady at the recent advance. Coffee is unchanged. Canned corn is in limited supply and held firmly. A good deal of confidence is expressed in this article, but tomatoes are low and weak. Butter is easy at home and much lower in the Eeast and dealers expect to see lower prices next week unless conditions improve. Cheese has taken on a firmer tone. Eggs shade firmer, but prices are non Poultry prices continue as quoted, with Flour is steady at prices last quoted with slight concessions made for

Indianapolis Grain Market.

NEWS OF TWO FAILURES CAUSES LATE RALLY IN STOCKS.

Regained Before the Close-Money and Crop Conditions.

NEW YORK, July 24.-The announcement ate to-day on the Stock Exchange of the failure of Talbot J. Taylor & Co., and of W. L. Stowe & Co., followed a day of suppressed uneasiness and apprehension. The bears rushed to cover their short contracts on the selling induced by the news of the failures and a violent rebound followed so that a large part of the day's losses were retrieved and the market closed with excited buying on a rising scale of prices. Some of the leading active stocks closed the day with net gains of a point or more. This compared with the declines below last night's level at the period of greatest weakness of 1 to 3% for the active market leaders. Among the specialties there were more severe losses, due in some cases, as the event proved to the special commitments of the embarrassed firms in those stocks. An example was the Mexican Central securities, in which the firm of W. L. Stowe & were interested. The failure resulted in a drop of 74 in Mexican Central from 1814 to 11. There were quite a large number of low-priced railroad stocks in which similar downward plunges, although not so extensive, served to arouse fears of com-

The failure of Talbot J. Taylor & Co. is inevitably associated with the name of James R. Keene, although his name does not appear in the partnership of the firm, but a family connection, and the fact that the well-known Tennessee firm acts for him connects the failure in the public apprehension with the large stock market operations which he has conducted. The market management of the United States Steel stocks during the period of their flota-Spring patent, \$5 per bri; winter wheat patent, \$4.40; straight grade, \$4; family grade, \$3.75; Pacific stock will be looked upon as having an outcome in the failures. The Southern Pacific pool was credited with holding at one time some 300,000 shares of Southern Pacific stock, and its challenge of the control of the Union Pacific party in the property and its attempt to force the payment of dividends on the stock are matters of recent notoriety and with the sequel

still pending in the court. Aside from the expectation of the failures the realization of the fears, and the revul-sion of feeling reflected in the efforts of the shorts to cover with the bad news out. there were no influences perceptible in the market. News of cooler weather in the corn belt counteracted the effect of yesterday's roorts of hot winds, and the liquidation in progress in the day's cotton market was viewed with satisfaction. The week's movement of currency indicates a cash gain by the local banks of upwards of \$6,-000,000, and news was received of the shipment of another \$1,250,000 in gold from Aus-

tralia to San Francisco. Bonds were weak in sympathy with stocks. Total sales, at par value, were \$3,595,000. United States bonds were unchanged on call.

Hogs-Receipts, 11.000; shipments, 2,000. When the hog market opened this morning the supply in the pens was not excessive, and at the etart there was rather active competition between all buyers and sales were at fully steady to a shade lower prices, the best lights showing the most strength, while heavy sold in some instances at strength, while neavy sold in some instances at least 5c lower. It was soon evident that the supply would be considerably augmented by late trains and packers withdrew from the market. This also caused shippers to change their views, and after several loads had been sold the trading was practically at a standstill. On the second round the bids were at least 16c to 15c lower

Sheep-Receiptst, 700; shipments, 500. The ply was not large and, although there was a fair demand from local butchers, the market opened with salesmen asking steady Shippers, having very little opposition, of course, were inclined to want some concessions, but finally were forced to pay about yesterday's prices for all fat stock, and it is possible that they bought some of the less desirable grades a little lower. After a basis for operations had been established the market was as active as could be expected and a good clearance was made. A few lambs sold at \$5.60@5.75, but \$5.50 was again practically the top, and other sales ranged from \$4 to \$5.25. The best sheep sold as high as \$3.75 and common to good kinds at \$2.23.50. IRAIN PRICES ARE DOWN

WHEAT CLOSES EASY AFTER FAIRLY STEADY SESSION.

Corn Is Active, but Lower, and Oats Are Dull and Steady-Provi-

sions Close at Declines.

CHICAGO, July 24.-Wheat held about steady at a small decline in prices, September being down at the close 1/4c. Corn was strong early and declined, but rallied again, September closing 4c lower. Oats were easier, closing 1/4c lower. Provisions

were down 15@2244c.

The opening in wheat showed an easier tone on cables, but a good demand, based on disappointing reports of yield from the Northwest, forced an early advance, September selling up from the opening price. 7614-60764c, to 764-6076%c. Offerings became free at the advance, resulting in a break to 75% 675%c. The market was soon oversold and a better tone followed when the trade started to buy back, and the close was at 76%c, a net loss of %c from yesterday. The late firmness in corn also helped the tone. Clearances of wheat and flour were equal to 350,000 bu. Primary receipts were 571,000 bu, against 1,036,000 bu a year ago. Minneapolis and Duluth reported receipts of 116 cars, which, with local receipts of 60 cars, 26 of contract grade, made a total of 176 cars, against 227 cars last week and 400 cars a year ago.

Lack of damage reports resulting from the hot Kansas winds and more favorable weather caused corn to lose much of yesterday's strength, but on the other hand the market displayed little weakness, there being enough support to hold prices near the opening figure. There was a large scat-tered trade, with plenty of activity on both sides. September closed 4c lower, at 50% @50%c, after ranging between 50%c and 51%c. Receipts were 129 cars, 9 of contract grade. The oats market was quiet and inactive, to a large extent under the influence of other grains. The close was at 1/3c loss for September, at 33%c, the range of prices being 33%c to 33%c. Receipts were 133 cars. Provisions showed a decline, in sympathy with a lower hog market. Early prices were a fraction under yesterday, and, with but slight damage, eased off and closed weak, with September pork 20c lower, at \$14.12½; lard 22½c down, at \$7.85, and ribs off 15c, at Estimated receipts for to-morrow: Wheat,

BOSTON, July 24.-The Commercial Bulletin will say in to-morrow's issue: "There is no change in the wool situation. The market continues active and strong. Gilt-edge Eastern manufacturers have been the heavy operators this week. They bought freely of fleeces, Oregon and territory. Good authorities estimate the aggregate sales of fleeces alone at fully 4,000,000 lbs and of Oregon at 2,000,000 lbs. Dealers are sold ahead on certain lines and have been obliged to inaugurate night work. The market is very strong, with several advances noted on actual tales, and the tendency of values is upward. There is no speculation. Wool is being bought for consumption, and the higher prices are due to the short supply and strong demand. The shipments of wool from Boston to date from Dec. 31, 1902, are 126,739,528 lbs, against 152,260,249 lbs at the same time last year. The date are 141,449,736 lbs, against 168,934,445 lbs for the same period last year. ST. LOUIS, July 24.-Wool firm; medium

NEW YORK, July 24.-In dry goods the market NEW YORK, July 3.—In dry goods the market conditions show practically no change, with buyers determined to operate with the utmost conservatism. Where purchases are made they are for immediate delivery, and urgent request is made for prompt shipment. Stocks in a good many departments are evidently very much depleted, and the chances are that they will become more so before replenishment, owing to the curtailment of production at the mills.

UNION STOCKYARDS, INDIANAPOLIS, July salesmen realized the best prices they have least a month. Shippers were well supplied with orders and there was a strong general way the market did not show a great improvement over yesterday, buyers were satisfied to pay strong prices and the supply was exhausted before a good many orders had been completed. In their present position prices of the best cattle are anywhere from 25c to 40c higher than they were a week ago. the demand the next grade also sold promptly at with stockers and feeders have not shown as much improvement as others, but of course are some higher than a week ago. than the closing prices yesterday, and with salesmen rather reductant in accepting such terms the trading was slow. The situation, however, was decidedly in favor of buyers and however, was decidedly in favor of buyers and finally salesmen were forced to accept the inev-itable. Representative sales indicate that the bulk of the business was on a basis of at least

ble. Representative sales indicate that the lik of the business was on a basis of at least lower prices than yesterday's average, and doubt there were many transactions, espelly in the medium to heavy line, that were below the high prices prevailing yesterday.
